

S922

***Waterproof, Dustproof
and Shockproof Portable
Fingerprint Time Attendance Terminal***

Introduction

The S922 is a unique portable fingerprint time attendance terminal with a rubber coating. It is specifically designed for off-site time management, such as construction sites, logistic industries, large farms, and the mining industry. Adopting a rubber coating process, its waterproof and dustproof efficacy reached an IP65 protection grade. There is a handle at the top of the rubber coating, which enables users to carry it easily. Above all, the S922 is shockproof (1m above the ground) due to its unique rubber coating.

GPRS, TCP/IP and USB-host are standard communication modes. It also has options for Wi-Fi and 3G (WCDMA) connectivity, which makes data management extremely convenient. The S922 can be used in multiple authentications that support fingerprint, Proximity card or Mifare card.

Specifications:

Fingerprint Capacity	5,000 (Standard) / 10,000 (Optional)
Card Capacity	30,000 (Optional)
Transaction Capacity	200,000
Fingerprint Sensor	ZK Optical Sensor
Algorithm Version	ZKFinger VX10.0
Communication	GPRS, TCP/IP, USB-host; Optional with Wi-Fi, 3G (WCDMA)
Standard Functions	ADMS, Work-code, DST, Scheduled-bell, Self-Service Query, Automatic Status Switch, T9 Input, Photo-ID, 9 Digit User ID, Short Message.
Optional Functions	Proximity card or Mifare card
Protection Grade	IP65
Display	3.5-inch TFT Screen
Power Supply	12V 3A DC; Built-in Backup 7600 mAh Battery
Operating Temperature	0°C - 45 °C
Operating Humidity	20%-80%
Dimension	225 * 235 * 125 (mm) H * W * D

Features:

- * Built-in 7600 mAh battery powered 28 hours of standby time, 16 hours of operation time
- * Communication via GPRS, TCP/IP, USB-host and optional with Wi-Fi and 3G (WCDMA)
- * IP65 rated waterproof and dustproof protection grade
- * Shockproof (1m above the ground)
- * Rubber coated protection
- * Convenient carry case design

Configuration:
